EDUCATION

B.Tech in **Computer Engineering**, Dwarkadas J. Sanghvi College of Engineering   Expected 2027
Currently in 5th Semester - **9.22 C.G.P.A**

Diploma in **Computer Engineering**, Government Polytechnic Mumbai, Bandra   2021 - 2024
Diploma Percentage - **95.25%**

SKILLS

Programming Languages: Python, JavaScript, C, C++, Java, TypeScript
Frameworks & Database: MERN Stack, MySQL, Next.Js , Flutter, PostgreSQL, MongoDB, Redux
Other: Github, Figma, Web Hosting(Cpanel, Hostinger, Go Daddy), Google Cloud Platform

EXPERIENCE

Full Stack Developer   February 2024 - June 2024
Hoarway Technology

- Developed a Lead Management CRM application using React.JS, PHP and SQL and hosted the application on cPanel. Desgined its mobile version on Figma.
- Built a Full Stack Invoice Management CRM using Next.JS and handled its Backend using Node.JS and MySQL, created a Interactive Figma Design before development and hosted the Frontend, Backend and Database of the Website on cPanel.

Full Stack Intern   August 2024 - November 2024
NetKnot

- Developed and maintained Curenet, a comprehensive healthcare management platform, enhancing the Pharmacy UI for efficient pharmacy inventory and management operations.
- Designed and implemented the Client UI, allowing users to add and manage healthcare services such as hospitals, clinics, and pharmacies, ensuring seamless interaction and user experience. Identified, troubleshot, and resolved bugs and issues in Curenet

Full Stack Intern   January 2025 - June 2025
Webnova

- Developed and deployed web-based and software solutions for various businesses, including hyperlocal markets and SaaS products, using React, Next.js, Node.js, and PostgreSQL (Supabase).
- Managed cloud hosting and infrastructure on Google Cloud Platform and Hostinger to ensure scalable and efficient deployment of applications.

Web / Android Development   August 2024 - Present
Google Developer Group DJSCE & ACM DJSCE

- Contributing to the ACM / GDG College Committee by developing and maintaining their website, as well as creating web solutions for ACM / GDG events.

Projects   https://vraj-porfolio.netlify.app

Reelx Clothing Website   https://reelx-seven.vercel.app & https://reelxclothing.com/

- Designed and developed a clothing e-commerce platform with a secure and scalable architecture, integrating Clerk for Google authentication and Razorpay for seamless payments.
- Deployed the coming soon landing page on a .com domain via GoDaddy, and a testing site on Vercel with images hosted on Cloudinary, database management via PostgreSQL(Supabase), and SSL security through Cloudflare.

FreshXpress   https://freshxpress.co.in/

- Designed and developed a farmer onboarding platform that captures detailed farmer information and geolocation using Google Maps. Enables seamless procurement of farm materials from farmers to supply businesses like Swiggy and Zomato.
- Built a comprehensive dashboard for managing operations, including warehouse management, farmer verification, inventory tracking, and business partnerships. Integrated interactive map-based address selection for accurate logistics and procurement.

College GDG Website   https://gdsc-vraj.netlify.app/

- Developed a responsive GDG website using React, optimized for seamless user experience on both mobile and laptop devices.
- The design prioritizes accessibility and clean UI for enhanced user engagement.
